

**Avangrid Renewables, LLC**

Oregon Electric Service Supplier (“ESS”)

Avangrid Renewables offers ESS services to Direct Access participants that are currently Pacific Power or Portland General customers and are seeking an alternative energy supplier. Avangrid Renewables specializes in providing 100% renewable energy supply to our ESS customers and during the calendar year 2020, Avangrid Renewables plans to provide direct access supply from electricity produced by renewable or carbon-free resources. The projected power supplied by Avangrid Renewables for 2020 is based on recent production and purchases.

The estimated electricity prices offered by Avangrid Renewables, LLC are as follows:

<b>Term</b>	<b>Product</b>	<b>Indicative Energy Price</b>
January 1, 2020 – December 31, 2020	Firm energy delivered to PacifiCorp’s or PGE’s system	\$39.50/MWh

The Indicative Energy Price is subject to change due to market conditions and specific load requirements. It does not include the renewable energy component of the product—which will be tailored to meet each customer’s unique need—nor other costs related to providing ESS services.
